

## JST CockpitView® – the IP-independent dashboard for your control room

JST CockpitView® gives you an overview at a glance of your most important applications for secure operation! JST CockpitView® is also called “the operator’s dashboard” by users, because the operator is able to personally arrange their monitors in the way they need them for their work! These aspects make JST CockpitView® unique:

- **More overview:** Reduces monitors at the workplace
- **Innovative:** Create cutouts and combine them with other content
- **Fast:** Keyboard/mouse operation in real time
- **Secure:** Transmission completely independent of the IP network
- **Flexible:** No additional software on your source computers, immediate implementation

**REQUEST A NON-BINDING OFFER**

## The IP-independent Cockpit for your control room

JST CockpitView® is also called “the operator’s dashboard” by users, because the operator can arrange his instrument panel in the way he needs it to provide an overview in the control room.
