

Laser-Cube rear-projection-video-walls with alarm-function for 24/7 monitoring

Reduce the number of monitors in the workplace and respond more quickly to critical alarms. JST's seamless laser rear projection Cubes for control room applications make this possible! Due to the shallow installation depth, it can also be used in small rooms.

- **Operation:** In real time with keyboard & mouse, directly on the Cube video wall
- **Seamless:** No bars visible between the individual Cubes
- **Installation:** Also possible directly in front of the wall. Installation depth from 422mm
- **Event control:** Computers and cameras are automatically switched on if alarm sounds
- **Quality:** Designed for 24/7 operation in control rooms with excellent image quality

Ultra-bright 24/7 video walls with laser technology

With Laser Cubes we install a scalable video wall solution – which does not have any bars between the individual Cube modules – in your control room. Network topologies, diagrams, process control systems, video cameras and graphics with extremely filigree lines are displayed perfectly on the seamless screen. The light source based on laser technology ensures perfect brightness and image sharpness.

What clients report about their experience with JST

SIEMENS

"This new technology is an enormous help for our colleagues. In particular, the reduction in the number of monitors creates a significantly improved overview."

Dirk Wienforth
Project Manager

TO REFERENCES

"Thanks to the support of JST, we can react more flexibly and quickly to faults and correlate fault patterns within our incident management processes".

Helmut Müller
Head of continuous operation

TO REFERENCES

"The cooperation with Jungmann Systemtechnik was a complete success. From the first planning discussions to the acceptance and operation of the plant, I got to know JST as a professional partner who also knows how to deal with tight deadlines and changes in the course of implementation".

Norbert Wessely

IT Operation Manager / System Control Center

TO REFERENCES

About the cooperation with JST: "The professionalism convinced me from start to finish".

Sascha Höhn

Project Manager

TO REFERENCES

"From the first performance to the realisation I always had a good feeling. Especially the care and support during the various stages of the move were absolutely professional and trouble-free. For that, my sincere thanks to the entire team at JST."

Volker Fischer

Network Operation Center Manager
