

JST myLogin® – "the operator's security"

JST myLogin® is a revolutionary solution for log in and log out centrally and quickly from all operator workstations with your company ID. The login/logout process only takes a few moments and, if you want, you can also save your personal layout of the screen contents.

- **Fast:** Login and logout within a few seconds
- **Free-Seating:** The operator can change workplaces and bring the screen contents along
- **Simple:** No software required on your computers
- **Secure:** Collective user & group accounts can still be used
- **Flexible:** Use a JST myLogin® user card or your company ID
- **Logbook:** On request, tamper-proof evaluation of login details

myLogin®
THE OPERATOR'S SECURITY

Almost unlimited possibilities: the operation of JST myLogin®

The free-seating concept, developed specifically for control rooms, allows automated login and logout processes using a chip card – without passwords. Each employee has his or her own card on which individual authorizations are stored. If the employee leaves their workplace, team members can unlock the computers' keyboard and mouse using their own login.

What clients report about their experience with JST – Jungmann Systemtechnik®

SIEMENS

"This new technology is an enormous help for our colleagues. In particular, the reduction in the number of monitors creates a significantly improved overview."

Dirk Wienforth
Project Manager

The whole team is pleased with the successful installation of the new control room:

Werner Mengert (left) / Heinz Braun (right)

Responsible for IT environments in the department and planning of the project / former Head of Vehicle Control

TO REFERENCES

Roche Diagnostics

"Working in the control room is much less stressful than before."

Christian Allinger

Shift Supervisor

TO REFERENCES

"The cooperation with Jungmann Systemtechnik was a complete success. From the first planning discussions to the acceptance and operation of the plant, I got to know JST as a professional partner who also knows how to deal with tight deadlines and changes in the course of implementation".

Norbert Wessely

IT Operation Manager / System Control Center
